DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 26, 27, 38, and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Cook #817,904. Cook discloses an apparatus for dissipating waves comprising a base (d) anchored to the ocean floor; a panel (a) having a front edge and a rear edge; wherein the front edge is tethered to the base; and wherein a buoyancy element (e) is provided near the rear edge.

Allowable Subject Matter

3. Claims 1-25 are allowed.
4. Claims 28-37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
